Report of the Superintendent of Schools.

To the School Board, Town of Rollinsford:

GENTLEMEN:—I submit herewith my first annual report as Superintendent of Schools of the Town of Rollinsford. Necessarily this report will cover only the fall term of 1920.

TEACHERS.

Fortunately there were few changes in the teaching force last September. Miss Christina Chick was transferred to the third grade, Town Hall school, and Miss Olive Hanscom is teaching grades seven and eight, Franklin school. During the fall term Miss Helen Tighe, of grade six, resigned to accept a position in the Plymouth Normal. As this was a well-earned and well-deserved promotion the School Board released Miss Tighe. This position is now filled acceptably by Miss Angelina Raino.

It affords me great pleasure to report that the Town of Rollinsford has an exceptionally well-equipped, competent, and hard-working corps of teachers who are rendering very efficient service.

STATE AID.

One of the important provisions of the new school law, passed by the legislature of 1919, provided for

the equalization of school privileges throughout the state. Section 22 reads as follows:

“In any district in which the money produced by a tax of five dollars on a thousand dollars of the ratable estates in the district is insufficient to maintain the required elementary and special schools, and to purchase the required text-books, scholars’ supplies, flags and appurtenances, the state board shall provide the balance of the money necessary from the money appropriated for that purpose by the provisions of this act.”

According to the provisions of this act the School Board of the Town of Rollinsford should receive from the state treasury for the expenses of elementary education for the school year beginning Sept. 1, 1920, the sum of \$3,608.91. There is, however, the possibility that only fifty-two per cent. of that amount may be received, because of the deficit reported by the state board and not yet acted upon by the legislature.

SCHOOL ACCOMMODATIONS.

In the village of Salmon Falls there are seven school rooms and eight grades, thus making it necessary to crowd two grades into one room. This affects the instruction of the pupil during two years of his elementary school life; for no teacher can secure as good results with forty pupils in two grades as with twenty pupils in one grade. Consequently the efficiency of your schools would be materially increased by opening up another room. By taking advantage of

the provisions of the present school law one more teacher could be employed without additional cost to the town.

The three primary grades are now well housed in the town hall building. There is urgent need of electric lights in grades four and five of the Franklin school.

AIMS.

The schools are intended to serve the best interests of all the children. We have aimed to secure thoroughness, to go slowly rather than cover a lot of ground, to have the boys and girls understand their lessons and as far as possible apply the knowledge which they gain in the school room. The course of study has been so outlined that the pupil may continue his work in the high school or academy.

Respectfully submitted,

WALTER H. YOUNG,

Superintendent of Schools.
